 Telephone for questions, call 415-600-6484

## Hotel Information

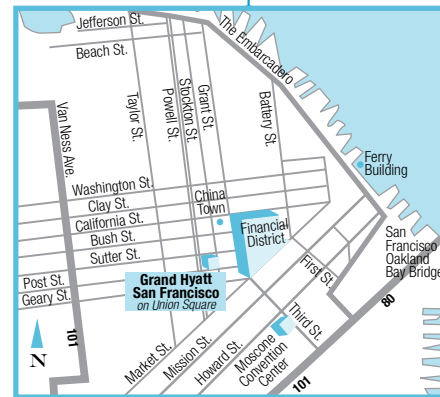

Grand Hyatt San Francisco (located in Union Square)  
345 Stockton Street  
San Francisco, CA 94108  
415-398-1234  
[www.grandsanfrancisco.hyatt.com](http://www.grandsanfrancisco.hyatt.com)

Book early – a room rate of \$289 per night is guaranteed at the Grand Hyatt as long as rooms are available. Request the “California Pacific Medical Center” rate for this conference. For more information and to make a reservation, please call 415-398-1234 or visit [www.grandsanfrancisco.hyatt.com](http://www.grandsanfrancisco.hyatt.com).

## Driving Directions

### From San Francisco International Airport (14 miles)

Take 101 North toward the San Francisco and Bay Bridge. Exit 280 North toward “Port of SF/280 North.” Stay in left lane and 280 becomes King Street. At 2nd light, turn left onto 3rd St. and go 8 blocks to Market St. Cross over Market St. (becomes Kearny St.). Continue 2 blocks. Turn left on Sutter St. Go 2 blocks to Stockton. Hotel is on the left.

### From Oakland Airport (20 miles)

Take the Fremont St. exit (on right). Proceed 1/2-block on Fremont St. Turn left onto Howard St. Turn right onto 3rd St. Cross Market St. (street name changes to Kearny). Take Kearny 2 blocks to Sutter St. and turn left. Take Sutter St. to Stockton St. and turn left.

### From San Jose International Airport (46 Miles)

Take 101 North toward San Francisco for approximately 43 miles. Take I-80 East toward Bay Bridge/Oakland, and then exit at Fourth Street toward Embarcadero. Make a slight left onto Bryant Street, then a left onto Third Street. Third Street will become Kearny Street. Take Kearny 2 blocks to Sutter St. and turn left. Take Sutter St. to Stockton St. and turn left.

## Parking

The Grand Hyatt San Francisco does not have a parking garage. They offer valet parking at the Union Square garage. The day rate is \$15.00 for the first hour and \$5.00 for each additional 30 minutes, plus applicable taxes.

### Nearby self-park lots (rates are subject to change):

Union Square Garage – 333 Geary (between Powell & Stockton)  
Rate: \$31 for 7-24 hours

Sutter/Stockton Garage – 330 Sutter Street  
Rate: \$26 for over 8 hours

Printed on 100% recycled paper.

FOURTH ANNUAL SYMPOSIUM:

# Frontiers in Pediatric Hospital Medicine

Thursday and Friday  
October 8-9, 2009

Grand Hyatt Hotel  
450 Powell Street  
San Francisco, CA 94102

Presented by California Pacific Medical Center  
Division of Pediatric Hospital Medicine.

California Pacific Medical Center (CPMC) is accredited by the Institute for Medical Quality/California Medical Association (IMQ/CMA) to provide continuing medical education for physicians. CPMC takes responsibility for the content, quality and scientific integrity of this CME activity.

CPMC designates this educational activity for a maximum of 14 AMA PRA Category 1 Credits™. Physicians should only claim credit commensurate with the extent of their participation in the activity. This credit may also be applied to the CMA Certification in Continuing Medical Education.

Beyond Medicine.

# Agenda

Thursday, October 8th

2:30-3:30	EVALUATING THE PEDIATRIC PATIENT WITH ACUTE & RECURRING PANCREATITIS Antonio Quiros, M.D.
3:30 - 3:45	BREAK
3:45 - 4:45	AN INPATIENT PAIN SERVICE: CASE PRESENTATIONS AND DISCUSSIONS Kenneth Furukawa, M.D.

Supported by educational grants from the following companies:

## Faculty

### Barbara Beach, MD

Medical Director and Co-Founder  
George Mark Children's House  
San Leandro, California

### Richie Cantor, M.D.

Associate Professor of Emergency Medicine  
SUNY Upstate Medical University

### Jennifer R. Daru, M.D., FAAP, FHP

Chief, Division of Pediatric Hospital Medicine  
California Pacific Medical Center, San Francisco

### Kenneth Furukawa, M.D.

Associate Clinical Professor, Anesthesiology & Pain Medicine  
University of California Davis Medical Center

### R. Paul Guillerman, M.D., FAAP

Section Chief, Computed Tomography  
Texas Children's Hospital  
Assistant Professor of Radiology  
Baylor College of Medicine

### Robert Listernick, M.D.

Director, Diagnostic and Consultation Services;  
Professor of Pediatrics  
Northwestern University's Feinberg School of Medicine

### John Mark, M.D.

Clinical Associate Professor, Pediatric Pulmonary Medicine  
Stanford Hospital

### Robert Mathias, M.D.

Chief, Pediatric Nephrology  
Nemours Children's Clinic

### J. Antonio Quiros, M.D.

Medical Director, Pediatric Gastroenterology & Nutrition  
California Pacific Medical Center, San Francisco

### Michael Ratner, M.D.

Professor of Surgery  
SUNY Upstate Medical University

### Nikola Tede, M.D.

Pediatric Cardiologist  
California Pacific Medical Center, San Francisco

### Daniel West, M.D.

Professor of Pediatrics  
Residency Program Director  
University of California, San Francisco

## Who Should Attend?

This course is designed for pediatric and neonatal hospitalists, pediatricians, family practice physicians, emergency medicine physicians, anesthesiologists, residents and allied health professionals who participate in the care and management of sick children and neonates.

## Course Objectives

At the completion of the program, participants should be able to:

- 1) Describe the etiology, pathophysiology and clinical management of various disease processes commonly found in infants and children
- 2) Summarize the rationale behind suggested pain management options for common inpatient pediatric scenarios
- 3) Develop new tools for having difficult end-of-life discussions with pediatric patients and their families
- 4) Discuss the complexities of appropriately transitioning an infant or child from the emergency room to an inpatient ward
- 5) Recognize the important role of the pediatric surgeon working in conjunction with the pediatrician to diagnose and manage various conditions

## Pediatric Hospital Medicine at California Pacific Medical Center

California Pacific Medical Center has specialized in pediatric care for more than a century. Each year, nearly 2,000 children are admitted to our Pediatric and Pediatric Intensive Care Units. As inpatients, children and their families benefit from the most advanced treatment methods available and our team's expert, compassionate family-centered care.

Our hospitalists work in partnership with referring pediatricians during a child's hospitalization. These board-certified pediatricians are available in the Pediatric Units around the clock, coordinating all inpatient care including subspecialty appointments, procedures, tests and transport. Working as a team, hospitalists provide consistent health care, ongoing communication and organized follow-up with referring physicians.

At California Pacific Medical Center, we believe in the power of medicine. We research the most up-to-date treatments, hire and work with the most qualified individuals, and practice the most modern, innovative medicine available. Because medicine can transform a body. Going beyond medicine can transform a life.
